

IRAKLI BUGIANISHVILI **ABANDONED** 22. 8. - 28. 8. 2008.

Galerija AŽ, Žitnjak 53 / otvorenje izložbe: 22. kolovoza u 19 h

Series of paintings *Abandoned* represent houses with feeling of emptiness and loneliness. Dripped colours on canvases stand for making distance between an image and the viewer. The lines are also a medium to recess the atmosphere of loneliness. I tried to capture mystic moments of the world in our era of globalization. I think that men are more and more lonely today, in spite of a huge progress in communication technologies.

Serija slika pod imenom *Napušteno* predstavlja kuće koje iskazuju osjećaj praznine i usamljenosti. Prolivene boje na platnima uspostavljaju distancu između slike i gledatelja. Linije su također medij koji produbljuje atmosferu samoće. Nastojao sam uhvatiti mistične trenutke u našem vremenu globalizacije. Mislim da su ljudi sve usamljeniji unatoč velikom napretku komunikacijskih tehnologija.
